

Subject:	CryptoAI - Weekly meeting
Date and place:	Sunday January 28 2018 14:00- 15:30 CET- Discord - CryptoAI channel
Present:	@lanj (THE MACHINE), @deeptreader, @Sarah, @Oscar Alsing, @Arnold, @Ron,

Agenda:

- Questions about the last meeting minutes
- Website platform decision:
- Project Name (DNS name) decision.
- Review current activities on Trello Board:
<https://trello.com/invite/oscaralsingcommunity/19cee46285fffc6e4a87360e198e517a>

Notes:

- Questions about the last meeting minutes:
- Website framework decision:
 - We'll be using Play Framework for the JSON.
 - For the website we'll use the React framework:
 - **@Oscar** will build a React front-end example.
<http://reactivex.io/rxjs/>
- Project Name (DNS name) decision:
 - Two different DNS names:
 - 1 for ICO listings
 - 1 for Crypto predictions
 - **@Ron**: create poll for Slack where people can add example of DNS names on and vote for it.
- Other points:
 - Write information of the project:
 - What we're doing.
 - Why we're doing it.
 - How we're doing it.

@Ron and @Sarah, look at creating some texts.
 - Remind people 12 hours in advance about the livestream by sending them an e-mail.
 - **@Everyone**, what can we do with faceswap?
 We should try to create a viral video where we swapped heads of IvanOnTech and Oscar.
@Oscar discuss it with IvaonOnTech.
